

Eric Echemane

ReactJs Developer

<https://echemane.ml>

<https://github.com/ericechemane>

eechemane29@gmail.com

0969 594 8292

A skilled React JS developer with 2+ years of experience designing and implementing high-quality, web applications. Proficient in using modern frontend and backend technologies, including TypeScript, NextJs, NestJs and other Node Js frameworks. Confident in writing automated unit and e2e tests with Jest and React-testing-library plus CI/CD using Github Workflow.

Skills

Typescript (intensively used) • NodeJs Frameworks (**Next**, Nest, **React Ecosystem**, SvelteKit) • Angular • Redux • Flutter • Laravel • MySQL • PostgreSQL • MongoDB • Prisma • Mongoose • TypeORM • SocketIO • Vercel • Railway • Python • JavaScript • Dart

Experience

ReactJs Developer @NewstarsInc.

Present

- Implement frontend and reusable software components using react and typescript.
- Involved in agile activities including sprint planning, standups, project estimation, updating user stories and tasks in DevOps.
- Involved in the following tasks on a daily basis: completing tickets, submitting pull requests, code review, code merges, reporting bugs and defects upon investigation,
- Constantly support and communicate to the team members from Philippines, Vietnam and Thailand.

Software Developer (Freelance)

2021 - 2023

- Designed, architect and deployed 10+ applications in React. Most of them are IMS and business software and tools. Some of them have real-time communication requirements.
- Integrate IOT devices (Arduino and RFID) with APIs with real-time communication using websockets.
- Worked with over 10 clients in the past.

Strengths

- 🔧 Software development planning
- 🔧 Proficient in git version control and collaboration
- 🔧 Can write automated unit and integration tests
- 🔧 Can set up CI/CD pipeline with Git and Vercel
- 🔧 Solid understanding in Object-oriented design, functional programming and software architectures.
- 🔧 Team player, reliable, consistent, artistic, and committed to lifelong learning.
- 🔧 I have strong problem solving and communication Skills
- 🔧 Strong knowledge in full-stack web applications, APIs, Integrations, etc.

Education

BSc in Computer Science (Dean's Lister)

2019-2023 • Pamantasan ng Lungsod ng Muntinlupa

Granted by the Dean of College of Information and Technology

Sample Projects

Engines [@echemane/engines](https://echemane/engines) - [npm \(npmjs.com\)](https://npmjs.com)

A CLI that scaffolds NextJs API Route handlers in NestJs-like structure with react-query integration. Generates controllers, validation, DTOs and hooks.

EES Visualizer <https://ees-visualizer.netlify.app> • a

visualization tool for sorting, searching and path-finding algorithms. With a simultaneous process that effectively describes and compares the algorithms.

Pixsoil <https://pixsoil.ml> • a machine learning android and web app for soil type classification that helps in planting decision making.
